

Part I: Install Toothority Plugin

Step 1: Log into your WordPress admin panel.

Step 2: Click the **Plugins** tab and then choose **Add New**.

Step 3: Search the WordPress plugin gallery for **dental videos**.

Step 4: Locate the blue Toothority logo, and click **Install Now**.

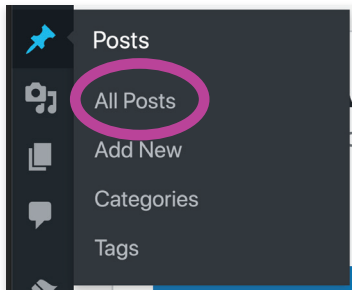

Step 4: Once the Toothority plugin is installed, click **Activate**.

In Part II we will embed individual videos on pages.

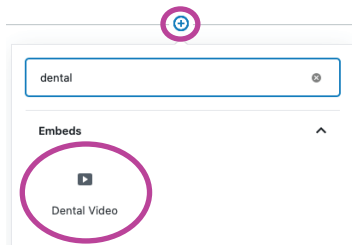

Part II: Embed Videos on Pages

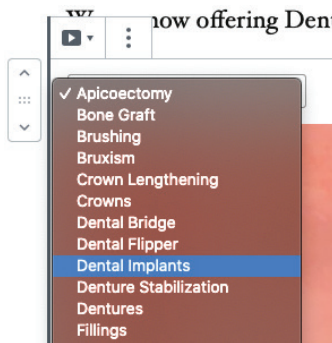

Step 1: Log into your WordPress admin panel.

Step 2: Navigate to the desired post or page and click edit.

Step 3: Click ⊕ to add a block, type **dental** to search, and choose **Dental Video**.

Step 4: Once the block is added, you may select any video from the drop-down.

Step 5: Click **Update** to save your changes.

Note: You may also insert Toothority videos anywhere shortcodes are supported. You may find a list of available shortcodes in the **Dental Videos** admin page:

Please visit the live version of your page to verify video has been embedded correctly.
